## **Commercial New Business Account Executive**

We are a respected professional firm of independent commercial insurance brokers who are undergoing an exciting expansion programme, taking us into 2020 and beyond.

We are looking for a motivated “self-starter” with a proven experience in a client facing and sales role, to create new business activity.

You will be given a free reign to seek local and regional new business opportunities from your own referrals and networking strategies.

This role is for someone prepared to seek out new contacts and does not have an existing book of business to fall back on. It’s about creating your own bank of clients from your own generated efforts.

We provide good quality back up from professionally qualified administration staff to assist you in attaining and maintaining new business and growth targets.

The ideal candidate will have a proven new business record in the corporate commercial insurance arena.

You will be Cert CII or preferable ACII qualified.

A good salary and bonus structure with other benefits for the right candidate.
